

Prestige Stone announces expansion plans

WOOSTER, OH – August 13, 2026 – Prestige Stone Products LLC, offering durable, realistic thin stone veneer for homes, fireplaces, outdoor living spaces, and commercial projects, announced plans to expand its operations in Dundee, a project that will strengthen the company's manufacturing capabilities while creating new jobs in Wayne County.

With a capital investment of \$5.8 million, Prestige Stone's expansion includes the construction of approximately 43,000 square feet of additional space at the company's facility. Construction is expected to begin in August 2026 and be completed by May 2027.

The additional space will support the company's continued growth, including the introduction of an innovative new stone product line designed to provide customers with an easier installation option that does not require traditional masonry work.

In addition to the new building, the investment includes improvements to the existing facility, new machinery and equipment, inventory, sewer upgrades, parking lot improvements and other infrastructure enhancements.

Once complete, the project is expected to create 14 new full-time equivalent positions and three part-time positions, increasing Prestige Stone's workforce from 45 to 62 total employees.

To support the investment, the project is receiving JobsOhio support and an Enterprise Zone Agreement through Wayne County, helping encourage continued business growth and investment in the region.

"Prestige Stone's expansion is another example of the confidence local manufacturers have in Wayne County," said Maribeth Burns, president of the Wayne Economic Development Council. "This investment not only creates new employment opportunities but also strengthens our manufacturing base and demonstrates the long-term value of investing in our communities. We appreciate Prestige Stone's continued commitment to Wayne County and look forward to seeing the positive impact this project will have for years to come."

The Wayne Economic Development Council (WEDC) is a public-private partnership dedicated to the economic development of Wayne County. In serving the local community's interests, the WEDC's primary role is to stimulate new capital investment and job growth through business expansion and attraction initiatives.
